November 18th, 1937

To the Wardens and Members of the Councils of the Counties of

Halton and Peel:
Gentlemen—

Your representatives on the Board of Commissioners of the House of Refuge beg to submit the following report to date, for the year 1937:

We started the year with a balance of $460.93, including the said balance; the total receipts to date amount to $13,070.23, with total disbursements of $12,575.56, leaving a balance on hand of $494.67.

Of the above amount of receipts $2,000.00 was received from each of the Counties. We do not expect to have to ask for more money this year.

Of the above amount of disbursements, the capital expenditure is $1,570.42, of which $826.87 was spent in installing toilets and floors in the men's wash rooms, and $644.00 in refrigerator box and unit, the said plant is working very satisfactorily and it will now be possible to kill the meat for the requirements of the home, during the whole year.

The crops on the farm were good, and the barns and cellars are well filled with hay, grain and roots.

The stock on the farm consist of 40 head of cattle, 4 horses, 1 colt, 30 pigs and the usual number of fowl.

On the whole we think conditions are very satisfactory and credit is due to the Superintendent and matron, Mr. and Mrs. Yarranton.

Our greatest concern now is, that with the number of head of stock kept on the farm, it is not large enough to provide feed for the winter, and pasture for the summer months. We believe we should have more land belonging to the Counties in connection with the House of Refuge Farm.

All of which is respectfully submitted.

D. MAGUIRE, DAVID W. MORAN,
Chairman. Warden.

Nov. 18th, 1937

ROAD SUPERINTENDENT'S REPORT

Expenditure on the Peel County Road System During 1937

To the Warden and Members of the Peel County Council.

Gentlemen:

I beg to submit herewith the statement of money expended in accordance with the regulations of the Department of Highways of Ontario on the Peel County Road system during the period December 16, 1936, to December 31, 1937, together with the tabulated statements, declarations, etc. required to be forwarded with your petition for the government subsidy on this expenditure.

The tax rate was 2¼ mills, giving a total expenditure of $89,619.28, of which approximately $77,500.00 is eligible for subsidy.

The main item of construction was the cutting of the hill at Inglewood at a cost of $12,652.50. No bridges were built. The amount available, outside of the above hill, only covered maintenance and some small improvements. I feel that I must again point out that many of the county roads were graded years ago for a speed limit of 25 miles per hour and since the limit has been raised to 50 miles per hour a start should be made in putting the grades and alignment of the roads in such a condition that they can be travelled in safety by the general public who expect county roads to be good roads.

The most notable change with the county road system during 1937 was the assumption by the Province of Ontario as the King's Highways of all of Road No. 8, from Highway No. 7 to the north boundary of the county, through Bolton and Palgrave; of Road No. 12, the Alton Road, 2nd and 3rd lines west, Caledon; also the west half of Road No. 11, fifteen sideroad, Caledon. The north townline from Orangeville to the York County boundary was also assumed as a highway.

This leaves the mileage of county roads at 115 miles, but there is plenty of work to be done on these roads with the amount that is likely to be provided during the next few years.

All of which is respectfully submitted.

NEWTON L. POWELL, B.A.Sc.

County Engineer and Road Supt.

PEEL COUNTY ROAD SYSTEM, 1937

The ditches were cleaned and the shoulders widened on the concrete pavement from Dundas St. to the Lakeshore Road. Concession one north of Dundas St. to Burnhamthorpe was shouldered and the grade widened to thirty feet. The work was done by a gang of seventy men taken from the relief rolls of Toronto Twp., directly reducing the cost of relief to the township.

Cost ....$ 3971.90

County Road No. 5, Toronto Twp., Lots 10-11, Con. 2 and 3, W.H.S., the Meadowvale Sideroad

The grade in the Credit river flats was widened from eighteen feet to thirty feet from the village to 100 yards west of the Credit river bridge, part of the fill coming from the side of the road in concession two, and the remainder from the purchase of the old radial railway fill from the Frank Jackson estate. This work can be extended.

Again the work was done by men taken from a list from the Toronto Township relief office and directly reduced the cost of relief to that township. Approximately 30 men were employed.

Culverts were installed at the fifth line east corner, 2, first line east, 2. First line west, 1 and one lengthened in con. 1 west. Two new culverts, one in con. 3 west, near the bridge 30 in. dia. and one 18 in. dia. near the fourth line west.

At the June session of the County Council it was decided to call tenders for cutting the hill in the west half of this concession. This was done. Four tenders were received:

Armstrong Bros., Brampton	per cu. yd.	22.9 cts.
Thos. Shenton, Toronto	per cu. yd.	25.6 cts.
Lioni & Co., Toronto	per cu. yd.	28.0 cts.
R. A. Blythe, Toronto	per cu. yd.	33.0 cts.

The work was awarded to Armstrong Bros., the lowest tender, and completed in record time, the contractor working day and night.

Total yardage 34,394 cubic yards.

Tile drains were placed on the north side of the cut, 800 lin. ft. of 6 in. perforated corrugated tile backfilled with broken stone from the quarry refuse piles. Sufficient gravel was placed to carry over the winter, but the hill will require a coat of good gravel to complete it.

The old road had been diverted and to meet the requirements of modern road traffic the road was carried straight through on the original road allowance with a curve with a 500 ft. radius to lead to the village of Inglewood.

County Road No. 2B, Village of Port Credit, Stave Bank Road (Brook St.)

The Council of Port Credit decided to spend their rebate on the above named street which runs past the municipal office and connects with the Stave Bank Road.

Tenders were called for several types of road and the work awarded to A. Cope & Sons of Hamilton for an asphalt pavement of the same type as laid on Highway No. 2, hot mix stone filled asphalt.

Owing to the doubt as to the application of the subsidy on the work and also approval of the amount on which the subsidy would be paid the work was delayed until the contractors had moved their plant away and they trucked all paving materials from their plant at Dundas late in the year after they had finished their job there.

REPORT OF THE FINANCE COMMITTEE

To the Warden and Council of the County of Peel.

Your Committee on Finance beg to report as follows:

Administration of Justice

Estimate for year $4,000.00. Net cost to May 31, $2,009.00.

The trial of Lakeview disturbance was a very heavy charge. If the Counsel in this case had notified the Sheriff that they were not appearing on first day of Court, Petit Jury could have been notified not to appear on that day, thus saving 48 Jurors' fees at $4.00 per day each. There were also an unusual number of Constables (9) in all on duty throughout the trial. This also increased the cost. The Crooks case was also very costly, as in addition to regular expenses, the added cost of $234.00 for special night and day guard had to be borne. There was also $42.00 for hospital. We strongly recommend that those in authority exercise the greatest care during the remainder of the year.

To the Warden and Council of the County of Peel.

Your Committee on the following beg to report as follows:

Good Roads

After checking the monies spent and estimating for work in progress, we find there is approximately $6,000.00 balance in this fund. We recommend that the Committee heed the advice of the Municipal Dept., "Don't spend money that you have not".

Property Committee

When accounts are in for work completed, there will only be $600.00 to carry on to the end of the year. We wish to compliment them on the work done, but urge them to keep within their estimate.

Hospitalization

Estimate for year $24,000.00. Spent to May 31, $10,056.57.

House of Refuge

Operating satisfactorily.

Child Welfare

Operating within estimate.

Adopted June 16, 1938.

Warden.

REPORT OF THE BOUNDARY ROADS AND BRIDGES COMMITTEE

Your Committee on County Boundary Roads and Bridges beg to report as follows:

On June 8th your Committee inspected the following Bridges: Numbers 3, 4, 5, Codlins, 31, 23, 22, 21, 6, 7, 8, 9, 10, 11, 28, 29, 26, 13, 15, 16, in the order as given.

1. **No. 3, Burnhamthorpe Bridge on the York Boundary**—Mr. Shaver, who owns property north of this bridge has notified the County he considers the construction of this bridge six years ago injured his property by raising the approaches. Your Committee can see no basis for Mr. Shaver's claim and recommend that the County Solicitor notify Mr. Shaver that the County of Peel deny any liability.

2. **No. 4, Craigs' Bridge, York Boundary, Con. 2, North of Dundas St.**—We recommend that six planks be replaced and the joists be examined and any found defective replaced.

3. **No. 5, Lot Seven, Toronto Gore, York Boundary**—We recommend that this bridge be painted and approaches repaired.

4. **No. 11, Cold Creek, Lot 10, Albion, York Boundary**—Construction of this bridge as approved in November Session, 1937, has not started as yet, but we have been advised that the plan has been approved by the Department of Highways and that York County are ready to pay their proportion. Your Committee has instructed the County Engineer to have the work completed as soon as possible.

We recommend that a letter be sent to the Clerk of Wellington County advising that the Peel County Council is not in favor of asking the Dept. of Highways to do any work on County roads.

7. We have a letter from Mrs. J. J. McKeown, Mono Road P.O., making a claim for damage to a wire fence from a car going off the road. We recommend that Mrs. McKeown be sent a letter denying any liability on behalf of the County.

Adopted June 15, 1938.

REPORTS

REPORT OF THE REFORESTATION COMMITTEE

To the Warden and Council of the County of Peel:

Your Committee on Reforestation beg to report as follows:

The First Reforestation of vacant land by the County Council was last spring.

Two acres were planted on the County Road on corners left vacant by straightening jogs in the centre of concessions. No. 1, Chinguacousy Twp., Con. 2, East Lots 17/18, area 2½ acres; No. 2, Albion Twp., Con. 2, East Lots 10/11, area 1½ acres.

The trees planted were Scotch Pine and White Cedar with a few Hardwoods, Walnuts and Elm.

In plot No. 1, Chinguacousy the trees were planted in furrows about six feet apart plowed in an old sod and about 80% of the trees are living and doing fairly well.

In plot No. 2, Albion, the ground was plowed late in 1937 and the advice of a Forestry man from the Government was followed, but nearly all of the trees have died. It was not considered necessary to cultivate the ground in the case of Evergreens, but there was a wonderful crop of weeds. Messrs. London and Powell attended a demonstration at Beeton and Midhurst Plantations and the Angus Seed cleaning plant on October 13th. There were about 150 present from Western Ontario. The advice we received at Midhurst was to move the living trees on the Albion plot to one corner as early in the spring as possible and summer fallow next year to reduce the weeds. The cost to the County this year was $32.93.

Adopted Nov. 18th, 1938.

CHAS. C. LONDON,
Chairman.

G. F. SKINNER,
Warden.

All of which is respectfully submitted.

Adopted Nov. 18.

G. F. SKINNER,
Warden.

N. CAMERON,
Chairman.

November 16th, 1938.

To the Wardens and Councils of the Counties of Halton and Peel:
Gentlemen:—

In submitting this report on behalf of the Commissioners of the House of Refuge, I take pleasure in reporting another successful year in connection with the said Home. The crops were good and the returns from the Live Stock is very satisfactory, in addition to the whole milk supplied to the inmates practically all the meat and butter used in the home has been produced on the farm.

Due to the fact that the Fire insurance on the buildings was renewed this year for the three ensuing years at a cost in premiums of $635.50, a capital expenditure of approximately $1,200.00 in laying terazzo floors and installing toilet equipment in the Women's Toilet rooms, and also putting Gypro ceilings in a number of the rooms, the expenditure this year will exceed that of last year.

In addition to the above we have had to provide for the maintenance of an approximate average of 105 inmates during the entire year to date, 24 only of the said inmates are receiving the Old Age Pension, therefore adding considerably to the total maintenance cost and we regret that the amount levied for under the $5,000.00, will not be of sufficient

requisitions of $2,500.00 from each County, making the total of $5,000.00 will not be sufficient to cover the County's share of maintenance of the Home for the year. The amount to be borne by the Counties is approximately $7,000.00.

The Home is now filled to capacity, in fact the Inspector of Refuges, Mr. Charlton, has drawn to the attention of your Commissioners the fact that the Home is really overcrowded and he thinks there is a number of comparatively young persons who should not be retained in the Home. In the face of these facts do not be surprised if the Board of Commissioners for the ensuing year may have to deny admittance to a class of applicants who have heretofore been admitted on application.

The Superintendent and Matron are managing the Home and the farm in a very excellent manner. The buildings and fences are in good repair and we consider everything is in a very satisfactory condition.

All of which is respectfully submitted.

Adopted Nov. 17th.

G. F. SKINNER, E. D. MAGUIRE,
Warden. Chairman.

In addition to the above a new silo was built, at an expense of approximately $200.00.

To the Supreme Court of Ontario,

General Sessions of the Peace,

His Honour, Mr. Justice Hogg, Presiding:

On the twenty-fifth day of October, 1938, we, the undersigned

Grand Jury, did duly inspect the public institutions of the County of Peel and beg to report as follows:

1. **Court House.** We wish to congratulate the County Council upon the fine appearance of the Court Room brought about by the re-decoration of last year. We find that the Crown Attorney's office is inadequate and recommend that enlargement be made. We would suggest that immediate action be taken on this, it having been recommended last year with nothing done upon it.

2. **Registry Office.** We visited the Registry Office and found it to be in excellent condition excepting the Registrar's office and Hall leading thereto and we wish to recommend that decoration be made to these parts. Also, we find the filing equipment inadequate and would suggest that further equipment be purchased, believing this to be a real necessity at this time.

3. **Gaol.** The condition of the County Gaol is a real credit to the community and well worthy of special mention, it being clean, well decorated and in good repair throughout. The care of the prisoners is all that can be desired. We feel that proper accommodation be arranged for the Town of Brampton Lock Up and would suggest that the Town co-operate with the County to make some satisfactory arrangement. We would suggest that some satisfactory conclusion could be reached to occupy the North West corner of the Gaol.

4. **Peel and Halton Old People's Home.** We find that this institution is in the finest condition and wish to make special mention of the efficiency of the Superintendent and Matron. The buildings were found to be clean and in good repair. The food was choice and of sufficient quantity. The management of the farm was quite efficient and we were pleased to find that there was an abundance of meats, vegetables and grains produced, much of it being used as a means of self support. This is a great saving to the County. We regret, however, to find a number of young persons living in this institution and would suggest that in future, this be watched and that the institution be kept for the purpose in which it was built, namely an Old People's Home.

5. We We visited the Peel Memorial Hospital and feel that this is a real credit to the County. The progress that has been made is of worthy mention. The improvements in the buildings and the equipment have made it very efficient and it is a real asset to the County and surrounding community.

It was our duty to deal with two highway accidents and because of this, we feel that something should be said regarding these. We believe that speeding is responsible for the great majority of highway accidents today. Excessive speeding is usually brought about by two causes in the main. First by a natural reckless tendency and second, by the influence of liquor. In this respect, we would suggest that anyone found speeding or even driving under the influence of liquor, be dealt with to the full extent of the law so that these accidents may be greatly decreased if not eliminated.

Further, we wish to congratulate the Town of Brampton upon their recent lighting improvement plan. It is quite modern and gives the town a fine appearance and brings it in line with the best in the province.

All of which is respectfully submitted.

FOURTH REPORT OF FINANCE COMMITTEE

To the Warden and Members of County Council:

1. In the Current account, there will be a deficit on the year's work of approximately $1,300.00, this being caused by the over-expenditure of the Administration of Justice, and Maintenance of Jail which we had no control over.

Considering the above deficit of $1,300.00 and the surplus carried over from 1937, amounting to $4,395.41, we still show an apparent surplus of $3,095.41.

2. We feel that the Goods Roads Committee, while they will show approximately $500.00 deficit, that they have made an honest effort to live within their budget. Considering the large expenditure of some $80,925.00, had it not been for the expense incurred in the unforseen lawsuit, which amounted to over $900.00, they would have had a small balance.

3. We would draw your attention to the following debenture debt, which we feel each one should know:

Debenture debt as end of 1934	$531,519.95
Debenture debt as end of 1938	$251,446.15
In 1942, reduced to	$ 88,605.55

Respectfully submitted.

1. In regard to resolution passed by Halton County Council re amending law in regard to chicken stealing, that we leave this for consideration of the Council. Council in Committee, was in favour of endorsation.

2. In regard to letter from Natural Milk Producers and Consumers Association of Ontario, Kitchener, that no action be taken.

3. That we are not in accord with Wentworth County Council re resolution regarding price setting of wheat and also freight rates.

Adopted Nov. 18.

REPORT OF THE GOOD ROADS COMMITTEE

To the Warden and Council of the County of Peel:

Your Committee on County Good Roads beg to report as follows:

1. We have a letter from the Dept. of Highways enclosing a copy of an Order-in-Council, approving of By-Law No. 856. This By-Law assumes the road from the easterly limits of Bolton to the York County Line and the connecting link with the Nobleton Road in York County. Approval of this road makes the Street in Bolton of which this road is a continuation, a connecting link of the County Road System. We recommend that this letter be filed.

2. During the Surface Treatment of the Mississauga Road, the Asphalt took fire and damaged some trees on the property facing on the road. Several claims were made for damage to trees and mail boxes. The A. E. Jupp Cons. Co. have settled all but one of the claims. This was overlooked and will be taken care of. There was no cost to the County.

3. The Auditor has submitted to the Finance Committee a statement re the County Road Account showing an estimated deficit of $512.20 at the end of 1938.

This is based on an estimated expenditure for Subsidy of $67,813.60 and includes paying off the deficit from 1937 and also paying the interest on the incoming Subsidy for four months of 1939 amounting to $583.15.

4. We recommend that the following Delegates to the Canadian Good Roads Congress held at Bigwin Inn, Sept. 6, 7 and 8th, be paid their expenses as follows:

R. P. Worthy	$14.00
N. Cameron	14.00
W. A. Wilson	14.00
N. L. Powell	14.00
Total	56.00

Adopted November 16, 1938.

E. D. MAGUIRE,
Chairman.

G. F. SKINNER,
Warden.

ROAD SUPERINTENDENT'S REPORT

of Expenditures on the Peel County Road System During 1938

To the Warden and Members of Peel County Council.
Gentlemen:

I beg to submit herewith the statement of money expended in accordance with the Regulations of the Department of Highways of Ontario; on the Peel County Road System during the period January 1st, 1938, to December 31st, 1938. Together with the tabulated Statements, Declarations, etc., required to be forwarded with your Petition for the Government Subsidy on this Expenditure.

The Tax Rate for 1938 was 2.40 mills, the total expenditure was $84,137.33 of which approx. $69,500.00 is eligible for Subsidy.

Again I must stress the necessity for improving the grade and alignment on many of the County Roads that have been in use for many years, greater speeds, double the speed they were designed for, make an early improvement necessary.

A slight start was made this year but only a start, there are a number of bridges that are in need of replacement or widening, as well as miles of the Grade.

Two sections of Road were approved during the year, as additions to the County Road System. The Road east of Bolton leading to the Fresh Air Camp as far as the Nobleton Road. Also the Five Sideroad in Chinguacousy from Huttonville to the Halton County Line and down to the Hornby Sideroad.

The most notable improvement and change in the County Roads during 1938 was the much more extensive use of Calcium Chloride on the Roads, 350 tons were applied and resulted in better travelling surfaces and a great lessening of the dust nuisance. A continuance of this program and its extension to all the roads that are not to be regraded in the near future would appear to be a distinct improvement.

All of which is respectfully submitted.

NEWTON L. POWELL, B.A.Sc.,
County Engineer and Road Supt.

REPORTS

To the Warden and Members of the County Council:

Gentlemen:—

I beg to make the following report on the appeal of the Township of Chinguacousy from By-law No. 884, which equalized the assessment of the various Municipalities of the County of Peel for the year 1939.

I appointed the 28th day of April, 1939, at 10 o'clock in the forenoon at the Court House in the Town of Brampton for the preliminary hearing in connection with the appeal and representatives of all the Municipalities in the County of Peel and of the County itself were present at the hearing. Directions were given as to the procedure to be followed and as to evidence to be tendered and the hearing was then adjourned to the 5th day of June, 1939, at 10 a.m.

Subsequently negotiations were undertaken in an endeavour to obtain a settlement of the matters in dispute, and on the 2nd of May I received a copy of a resolution passed by the Equalization Committee, which reads as follows:—

May 2nd, 1939.

"Moved by W. A. Bates,

Seconded by E. D. Maguire,

THAT in the matter of Equalization of the County of Peel in pursuance of the appeal be it resolved that if satisfactory to the County Judge Archibald Cochrane, that it is hereby agreed that the amount in dispute being $33,997.00 be divided as follows—The $33,997.00 be deducted from the equalized assessment of Chinguacousy, $10,000 be then added to the assessment of Port Credit, $3,997.00 be then added to the assessment of Chinguacousy and the remaining $20,000 be distributed among the 9 municipalities according to the percentages submitted by Judge Grout in 1933. Carried.

A. D. McBRIDE, Chairman."

Adopted June 13th, 1939.

I also received a letter dated the 2nd of May, 1939, signed by J. N. Cameron, Reeve of the Township of Chinguacousy, in which it was stated an agreement had been entered into which was satisfactory to the members of the Equalization Committee and asking that the appeal of the Township of Chinguacousy be withdrawn. On the 5th of June a further hearing was had at which representatives of all the Municipalities were present, the appeal of the Township of Chinguacousy was formally withdrawn and I was requested to make my report to your Council. Attached hereto is a schedule in which I have set out the assessments as made by By-law No. 884, the deductions to be made as per the terms of the settlement, the additions to each assessment and the total equalized assessment after making the necessary deductions and additions.

I find and declare, therefore, that the assessments of the several Municipalities in the County of Peel for the year 1939 shall, in lieu of the amounts fixed by said By-law No. 884, be and are hereby fixed as follows:

Township of Albion	$1,447,984
Township of Caledon	2,017,978
Township of Chinguacousy	3,773,959
Township of Toronto	6,877,925
Township of Toronto Gore	813,991
Town of Brampton	3,455,963
Village of Bolton	231,998
Village of Port Credit	1,109,988
Village of Streetsville	249,997

As the appeal has been settled by mutual agreement, I feel it is equitable that the County as a whole shall pay the Judge's fee in connection with the appeal. Each Municipality will thereby pay its proportionate share of the costs. Each Municipality shall pay its own costs in connection with the appeal, and I so direct.

Perhaps under all the circumstances it would be advisable for your Council to pass a By-law at the next regular meeting which would confirm the equalized assessment as set forth in this report. The County Council are to be congratulated on the amicable settlement of this difficult matter.

ARCHIBALD COCHRANE,
Judge

DATED this 12th day of June, A.D. 1939.

REPORT OF PRELIMINARY CONSERVATION AND REFORESTATION SURVEY OF PEEL COUNTY

Peel County can be divided roughly into two parts from an agricultural and reforestation point of view.

The Southern part includes the townships of Toronto, Toronto Gore, Chinguacousy and the south quarter of Albion. This section is characterized by comparatively level land with heavy, rich soils.

The Northern part includes the townships of Caledon and the north three quarters of Albion. This section is characterized in Albion and the east part of Caledon by tumultuous hills rising steeper and steeper toward the northern boundary of the county. These hills are mainly light soils but vary from clay to pure blow sand and gravel. The west part of Caledon Twp. is traversed by the well known Niagara Escarpment which is so noticeable, for example, at Credit Forks. There is a great variety of soils above and below this Escarpment. Some low swampy land at its foot and much stoney and light soils on its heights.

Let us now consider the conservation requirements of these two parts of the county. First, the Southern Section. Since this can be classed as mainly good agricultural land the need for reforestation is not so evident, but even here much can be done. At present the percentage of woodland and slash is very small. Toronto Twp. 97.2% cleared, less than 2% woodland and slash; Toronto Gore 91.2% cleared, 8% slash; Chinguacousy 97.8% cleared, less than 2% woodland.

From these figures it can be seen that the percentage of forest cover is below what it should be even for such a closely cultivated area. It must be noted that the whole of the cleared land is not necessarily fit for farming.

In this southern section many creeks and springs dry up entirely during the summer and many farm wells at best give a very uncertain supply of water.

The Etobicoke river, which rises and has its whole drainage area in this section is an example of the rapidity with which water flows off this cleared land. It only takes a few hours of rain to have an immediate effect on bringing about flood conditions, while in dry weather the river bed at times is completely dry. The same can be said of the west branch of the Humber. Compare this with the Credit river which rises in the northern part of Peel and Erin township in Wellington. Here there is a greater area of woodland and swamp, and the river, after heavy rains, takes considerable time to reach flood proportions.

Having these few points in mind, it is recommended for this southern section of the county that a programme of education in reforestation and conservation be carried on. This is best accomplished by the establishment by the townships or county of demonstration plots and by lectures to adults in local halls, and talks to upper school classes in schools. This would, no doubt, lead to stimulating interest in the establishment of windbreaks and shelterbelts in this flat, open country and the proper care and maintenance of the existing woodlots.

The Northern Section. It is in this northern part that there is a real and urgent need for reforestation and conservation. Here lies the source of many streams, rivers and springs which water the lower agricultural country of the Southern Section.

At present the percentage of forest cover is far below the requirements necessary to assure that this water supply is adequate and retarded sufficiently to tide over the dry summer months.

Albion township is 88% cleared. The remaining 12% is by no means all woodland, and even if it were it is not nearly sufficient for such a hilly country composed mainly of soils of low agricultural value. Hundreds of bald denuded hilltops and eroded hillsides characterize this part of the country. This same condition exists throughout the eastern part of Caledon township. Caledon Twp. is at present 85% cleared, whereas actually if proper land use methods were practised it would be 85% forest cover and 15% farmed.

Over the greater part of this Northern Section of Peel there is, from an agricultural point of view, definitely no possibility of improvement and there are many evidences of rapid deterioration.

Now what can be done here by the county to improve matters? There is, of course, the county forest plan whereby the county purchases the land while the province undertakes to plant trees and care for them. An agreement must be reached between the county and province to this effect.

Unfortunately, this is an expensive policy in this area, as land value is quite high for some reasons and the purchase of a thousand acre block would be difficult (a thousand acre block is necessary at present for the establishment of a county forest). The lowest price at which such a block could be bought is from 10 to 15 dollars per acre. However, as an alternative, the county could undertake the whole project themselves in somewhat similar manner to Norfolk county. That is the purchase in the townships of smaller areas of around 100 acres. The province would supply the trees and give supervision but the county bears the cost. Under this scheme the county does not share any revenue with the province as under the county forest scheme. These smaller parcels of land can frequently be acquired at a very low figures from time to time.

There is an area badly in need of reforestation at present that can be acquired very cheaply. Here a start could be made next spring. There is an area in the south end of Albion along the third concession known as the Sand Hill. In fact the third concession road is not open for traffic on account of this knoll which is of about 500 acres and rises out of the level surrounding country. This knoll is pure blow sand and definitely unfit for agriculture, even unfit for pasture. Roughly, it comprises lots 13 and 14, concession 3 and lots 13 and 14, concession 3. In some places it is already active blow sand without any vegetation whatsoever. Such a spot of 30 acres is on the third concession road on the property belonging to Mr. E. Wilson (lot 13, Con. 3).

This 30 acres is a menace to the surrounding good land and one has only to see it to realize the necessity for reforestation. A start could be made here as it would constitute a very good demonstration of what should be done to such lands.

There are also several parcels of poor land at present in the hands of the government for payment of services charged against the estate of some person. An example of this is lot 28, Con. 7, 200 acres. Some arrangement could possibly be made to have this acquired by the county.

As well as the above recommendations it could be suggested further that an educational campaign be carried on. The establishment of school plots of from 5 to 10 acres where school children can plant and watch the growth of trees. This can be undertaken either by the county or the township. Each school section could ultimately have such a plot, one being established in each township each year.

However, the main thing is to get something started as soon as possible so as to give the feeling that something is being accomplished. A definite policy could be planned, whereby the county could acquire, and plant so many acres each year. The cost would not be great and it could be classed as improvement work. It sometimes seems inconsistent that considerable funds are often spent by municipalities, without opposition, on work that is not nearly so urgent as this where the returns are slow but sure and lasting.

The Warden and Members of the Council of the County of Peel:

Gentlemen:

Your Commissioners of the House of Refuge beg to report as follows:

1. In submitting this report on behalf of the Board of Commissioners it is gratifying to us that we are again able to inform you that the crops on the farm were good and the returns from Live Stock is very satisfactory. In addition to the whole milk supplied daily to the inmates, practically all meat and butter used in the Home is produced on the farm.

The Inventory to date shows on hand 5 horses, 2 colts, 24 head registered Ayrshires, 9 head grade cattle, 30 pigs, 20 geese, 100 hens and 3 turkey hens.

Produce raised on the farm: 450 bus. Wheat; 2,000 bus. Oats; 8 bus. Beans; 20 bus. Onions; 26 bags Parsnips; 500 bus. Turnips; 500 bus. Mangles; 115 bags Carrots; 900 head of Cabbage; 25 tons of Straw.

There is 75 tons of Hay, part of which was purchased in the field.

2. The total receipts for the year to date is $13,350.24, with disbursements of $13,336.03, of the above receipts the Counties of Halton and Peel have transferred to the Home the amount of $3,000.00 from each County.

There has been expended approximately $1,000.00 in capital expenditure, mainly for a new washing machine and seed drill.

There has been an average of approximately 100 inmates in the Home during the year until very recently, the number has been reduced and there is now 90 inmates of whom 25 are receiving the Old Age Pension.

3. As you are all aware there has been an unfortunate occurrence at the Home during the year, and for the sake of all concerned the Board regret that we were called on to deal with a matter of the kind. However, in considering action to be taken we unanimously agreed in the opinion that it would be in the best interests of the Counties and all concerned, if we did not to too

great an extent disturb the management and work at the House of Refuge, at least until the case now in the Court has been decided.

All of which is respectfully submitted.

JAS. L. HEWSON, Commissioner.

Carried Nov. 23, 1939.

W. A. BATES, Warden.

Road Superintendent's Report

OF EXPENDITURES ON THE PEEL COUNTY ROAD SYSTEM

DURING 1939

●

To the Warden and Members of Peel County Council:

Gentlemen:

I beg to submit herewith the Statement of money expended in accordance with the Regulations of the Department of Highways of Ontario, on the Peel County Road System during the period January 1st, 1939, and December 31st, 1939. Together with the Tabulated Statements, Declarations, etc., required to be forwarded with your Petition for the Government Subsidy on this Expenditure.

The Tax Rate was 2.50 mills; the Total Expenditure was $87,905.57, of which $83,927.00 is eligible for Subsidy.

A start was made on improving the grades and alignment of the County Roads. The narrow, crooked grade on Fifteen Sideroad, Concession three East, Township of Caledon, was widened and gravelled, also the jog in Concession three, on the Ten Sideroad in the Township of Albion.

Two twenty foot span bridges were built, replacing old concrete structures with 14 ft. and 16 ft. roadways, at Pendergast's, Con. 4 Albion on the Townline between the Townships of Albion and Toronto Gore, also one at Lot eleven, Townships of Chinguacousy and Toronto Gore.

This was only a start and there are many more bridges and sections of Road that are narrow and dangerous. The Road Tax Rate should be kept as high as reasonably possible so that these roads can be improved and put in shape for paving.

Many sections are requiring such heavy maintenance that it would be true economy to surface them. A start was made again on this, when three sections totalling 1.8 miles were paved this year.

All of which is respectfully submitted.

NEWTON L. POWELL, B.A.Sc.,
County Engineer and Road Supt.

County Road No. 1, Toronto Township—Con. 2/3; S.D. St., Lots 31-35; Con. 1, S.D. St., Lot 28; Con. 4/5 West, Lots 9 and 10

The half mile south of Dundas St., known as the Spring Road, while a County Road for many years, has been a "Given Road" and the County had only limited rights outside of the travelled way. The owner of the property on both sides, Mr. James Leith Ross, agreed to give the County title to a 66 ft. roadway in return for fencing the East side. This fence will not be completed until early in 1940. This widening has been under consideration for several years and Mr. Ross' co-operation and assistance was much appreciated.

Some widening of the Spring Road Grade was done, two culverts extended, stop signs and other signs placed.

The Streetsville road for eight-tenths of a mile south from the Meadowvale Sideroad was paved with three inches of premixed gravel asphalt mulch. Tenders were called for this work and the contract awarded to the lowest tenderer, the Municipal Spraying Co., of Toronto. Their plant was set up in a gravel pit near Milton where they had been laying the same type of pavement on the Milton-Hornby Road for Halton County. The haul was 14 miles and the price $2.32 per ton including mixing, hauling and laying and the supply of all materials.

The Third Concession East was graded. Tenders were called and the lowest tender accepted, this was by the John Patterson Const. Co. Ltd., of Brampton, at 16.9 cts. per cu. yd. and a lump sum of $10.00 for cutting and grubbing. The estimated quantity was 15,000 cu. yds. but when the grade was nearly complete a section at the middle of the Concession where there is a fifteen foot fill, sank six feet and it took nearly an additional one thousand yards to bring the road to grade. The grade is 30 ft. wide, and this work replaced a number of narrow cuts and fills which were dangerous to traffic both winter and summer.

A culvert at the Third Line, 8 ft. span and 4 ft. high, was lengthened from 18 ft. to sixty feet. This was not included in the original estimate but when the tender price for grading was so low the culvert was strengthened and extended by the John Patterson Co. on a day labor basis.

Your delegates to the Convention of Association of Rural Municipalities beg leave to report as follows:

The morning session on February 20 was addressed by Mr. Horton of the Dept. of Municipal Affairs who advised early budgetting and tax collection in rural municipalities pointing out that there were three tax collectors in every municipality—the Dominion Government, the Provincial Government and the Local Municipality coming late on December 15, was left holding the bag in many instances.

The afternoon session was taken up with the discussion of resolutions re County Equalization, Reduction of Grand Juries, Income and Gasoline taxes, grants to community Halls and Parks and Dog Tax Act.

The morning session on Wednesday, February 21, was addressed by Mr. Friskey of the County of Frontenac who voiced a complaint on behalf of his County against the Tourist bureau and Ontario Government for lack of Road Development and Publicity re their unsurpassed lakes and scenery.

The auditors report was then presented showing receipts of $1120.00 and expenditures of $956.00.

The next address by Mr. Germaine, author of the new accounting system, which the municipalities are being asked to adopt, proved to be the highlight of the convention. In opening his address, Mr. Germaine asked the Association to accept a cheque for $150.00 from the Government as an appreciation of the work the Association was promoting and emphasized the fact that the Government wished it distinctly understood that the Department of Municipal Affairs was at the service of the Municipalities whether it be legal, financial, or anyother advice they might require.

Mr. Germaine pointed out that under Democracy, Local Autonomy should prevail but when municipalities allowed their tax rolls to be seven years in arrears, appointed auditor or auditors who perform their duties as a matter of form and without proper knowledge of their duties, Reeves persist in signing orders for payment in advance. One person carrying on the duties of several officials and County Councils persist in jockeying re county equalizations the Department was looking on with serious apprehension. He envisaged the appointment of an Assessment Supervisor stating his opinion that old assessment rolls should be discarded, that assessments should be made in the summertime, that people should be assessed for the privilege they enjoy, and that unless municipalities looked upon an auditor as a watchdog rather than a bloodhound, they might expect legislation that would place them as in Manitoba where they would be notified that Mr. Brown will be your auditor this year at so much per day or as in Quebec where you may hire an auditor from a graded list provided from the Government.

The Wednesday afternoon session was taken up with completing resolutions and election of officers.

In conclusion, your delegates wish to express their belief that this Association offers a wonderful opportunity for the concentration of rural opinion in a way that it may be heard.

(Sgd.) WILLIAM BOVAIRD.
JOHN ANDERSON.

REPORT OF THE INVESTIGATING COMMITTEE OF PEEL AND HALTON HOUSE OF REFUGE

Brampton, Ont., Feb. 28, 1940.

Pursuant to resolution being passed on January 22, 1940, at the County Council session whereas a special committee was appointed to investigate affairs at the House of Refuge therefore the committee met first on January 23, 1940, in the Court House at 10.00 a.m. The first order of business was electing a chairman. Mr. A. E. Sherman was chosen and C. Core was elected secretary. We then proceeded to go over the Minutes of the House of Refuge Commission from 1934 to 1940 and beg to report as follows:

We notice in the Minutes of September 13, 1938, an item of $240.00 refunded to the Old Age Pension Commission for a pension re inmate predeceased 12 months. We cannot understand how an oversight of this kind could occur.

We notice in the Minutes of January 12, 1939, page 69 and of December 18, 1939, on page 83, where the commission gave J. J. Jamieson $100.00 on each occasion because he was not being paid sufficient salary for his duties as secretary treasurer in the opinion of the Commission. We feel the action of the Board in this matter was irregular.

In the Minutes of December 18, 1939, page 83, we notice where Mr. Bates and Mr. Hall were appointed to investigate some of the stories being circulated in regard to the management of the House of Refuge. We failed to find in the Minutes where any such report had been presented.

A resolution, passed on October 27, 1939, on page 79, moved by V. Hall and seconded by W. A. Bates, "That in the case of mail going out from or coming into inmates of the House of Refuge, we hereby authorize the Superintendent and Matron in charge to censor said mail and a notice of this resolution be furnished to the Superintendent to post up in the House of Refuge for the information of the inmates.

We also found another resolution on November 28, 1939, page 82, moved by V. Hall and seconded by W. A. Bates—That we accept the tender of the Dominion Fire & Burglary Alarm Ltd. to instal an automatic supervised Fire Alarm System in the House of Refuge Home as per specifications submitted under date of November 3, 1939, to complete the same to the satisfaction of the Board for the sum of $1,635.00, sales tax included, to be paid on or before February 15, 1940.

In regard to the two previous resolutions, your Committee then decided to adjourn to the House of Refuge at the hour of 3.00 p.m.

We found there the Notice which had been ordered placed in the Home in regard to the censoring of the mail and inquired about these letters from the Acting Superintendent. We were shown two of little consequence and were informed that one had been burned unopened.

We found that the automatic Fire Alarm System was in the process of being installed. We then spent the remainder of the afternoon interviewing the inmates of the Home and received two complaints, one being that they did not have butter at dinner and the other that they did not have milk to drink but on the whole, they all seemed to be happy and fairly well kept.

Your Committee met again on January 24, 1940, at 10.00 a.m. in the court house and decided to return to the House of Refuge. We made a thorough inspection of the Home and barn, including the horses, cattle, hogs and chickens and found all premises in well-kept condition. We found that the stable was overcrowded with cattle, with a number of head in the feed alley and we believe that the policy of producing accredited cattle for sale is the wrong policy for an institution of this kind because it is impossible to grow enough roughage on a farm of this size to feed this number of cattle.

We found that hay had been purchased several miles away and that the inmates had been taken there to help harvest this hay.

We also inquired into the purchasing and selling of horses which was drawn to the Commission's attention by the auditor and we find that one horse was purchased from George Yarranton on October 2, 1936, for the sum of $75.00 and sold to J. Brownridge on July 21, 1938 for $100.00. This horse, as far as the records show, never belonged to the House of Refuge Commission. On the same day, July 21, 1938, there was purchased from J. Brownridge, one horse at a cost of $150.00. In the records, we could not see where this horse had belonged to the House of Refuge Commission. We find that this horse, belonging to the Superintendent, died during seeding time of the spring of 1939.

Then shortly afterwards on May 9, 1939, another horse was purchased at a cost of $200.00 from A. D. Rutherford. Further, on June 9, 1939, there was purchased from H. Caslor, one horse at a cost of $90.00. We failed to find in the Minutes any authority for the purchase of the above mentioned horses but on July 15, 1939, we find that the Commission paid to W. A. Yarranton, the sum of $415.00 for horses purchased which included:

Oct. 2, 1936, purchased from Geo. Yarranton, 1 horse	$ 75.00
July 21, 1938, purchased from J. Brownridge, 1 horse	150.00
July 21, 1938, sold to J. Brownridge, 1 horse	100.00
May 9, 1939, purchased from A. D. Rutherford, 1 horse	200.00
June 9, 1939, purchased from H. Caslor, 1 horse	90.00

The horse purchased on July 21, 1938, is the aforementioned horse which died during seeding time.

In the same report of the auditor, we found that a payment was made in favor of Jos. Partridge of $48.50 for suit and repairs which, according to the secretary treasurer, was for clothes for C. Leonard, an inmate of the House. We also found that a suit was purchased in 1938 for $37.50 of which we could find no order by the Commission for either one of these suits. We fail to see why suits of this value should be purchased for an inmate when we found, upon investigating, that no other inmates had suits of anything near this value.

This is as far as we got along for the first two days and we adjourned to meet again on February 16, 1940.

On February 16, 1940, we met at 10.00 a.m. in the Council Chambers and began by going over the Revised Statutes of Ontario, Volume 111 referring to House of Refuge, in section 4, clause 8, part 1 of chapter 385.

We found that previous to Mr. Yarranton being appointed Superintendent, that a special committee had been appointed to investigate the previous Superintendent and the management of the Home and found, in going over this report, that they recommended the rules and regulations be revized and brought up to date. This, we found was completed but according to the Statutes, chapter 385, subsection 8, said rules and regulations should be submitted to the Lieutenant Governor in Council for approval. This, so far as we can ascertain, has never been done.

We found in our investigation that certain inmates have been leaving the Home and going out to work during the summer months. Your Committee recommends that according to the Statutes, section 13 of part 1, requires an account be kept of all earnings of such persons leaving the Home, which has not been done and we would, therefore, recommend that this section be strictly adhered to. We would further recommend that the practice of trading work with neighbouring farms be strictly prohibited as we believe this privilege has been greatly abused.

According to section 18 of part 1 of the above Statutes, we find that the inspector shall, at least once in every year, send a copy of his report to the Clerk of the Council of every municipality having an interest in the House of Refuge. To our knowledge, this has never been done. If this procedure had been followed, according to the Statute, this Council would have been thoroughly acquainted with all recommendations re this House of Refuge. As an instance of the failure to receive this report by the Clerk of the County, we refer to the installation of the Automatic Fire Alarm System which is a flagrant violation of the rules and regulations of the House. We feel that this action showed very poor judgment on the part of the Commission and the English language does not contain words suitable to express this Committee's condemnation of the action of the Commission of the House of Refuge in letting such a contract and proceeding with the installation before bringing it before this County Council According to the rules and regulations, this item should have been included in their estimates for the year which was not done and an expenditure of this amount should not have been undertaken without the approval of the Council concerned and especially at the time that this work was undertaken. In going further, we would point out as an indication of the callous indifference towards the comfort and well being of the inmates by the Commission as indicated by the resolution which they passed on the 15th day of September, 1939, which reads: Moved by V. Hall and seconded by W. A. Bates, That James Cation be examined by the doctors with a view to having him committed to the Ontario Hospital for mental cases. Carried.

Owing to the unfortunate occurrence in the forenoon of that day, we do not think this was a proper time to put this resolution through.

The indifference of the Commission as to the management and conduct of the Home is clearly shown by the precipitated action of the Commission immediately following the unfortunate accident at the Home as expressed by the further resolutions passed at a special meeting held on Oct. 27, 1939, reading: Moved by E. D. Maguire and seconded by V. Hall—That Bert Irvine be notified that he must cease to be a resident of the House of Refuge on or before Nov. 1, 1939. Mr. Bert Irvine had been an inmate for over a year and no action had been taken previously to put him out. The other resolution referred to—Moved by W. A. Bates and seconded by V. Hall, that Robert McKay, inmate, be discharged from this Home, to take effect on Nov. 1, 1939. This man had been an inmate from May 20, 1935, and while there had been complaints about him going to Georgetown every Monday, no action had been taken by the Commission until after this unfortunate accident.

On February 26, 1940, your committee again met at 10.00 a.m. in the court house and decided to pay a surprise visit to the Home. When we arrived there, we immediately went in the back door and down cellar. The feeling of consternation was plainly evident by the management of the Home by the fact of expressions of alarm which we heard and which was made more evident by the fact of our not being left alone wherever possible with any of the inmates. We found, however, the inmates comfortable and apparently happy and the Home itself, was in a well-kept condition.

We were out and inspected the stables and checked the milk production of the Ayrshire herd for the second time and found their production low. We also found an aged bull tied up with a chain in an open stall alongside a row of cows. This, we consider a very dangerous way of keeping a bull and we were surprised that the Commission had not provided a suitable bull pen.

During our visits to the Home, we found several inmates confined to their beds and upon inquiring, found that between our last visit and this visit, two inmates had passed away. We found also that a number of these sick inmates were being cared for by other inmates of the Home. After consultations with these inmates and also with the Acting Superintendent, and Matron, we are of the opinion that a Graduate Nurse and Orderly should be employed to do this work. We feel in the absence of the Doctor that a Graduate

Nurse and Orderly could be of great assistance and comfort to these sick inmates. We believe that the inmates of the Home have suffered because of the fact that the Superintendent has been allowed to employ members of his own family and by so doing the duties of the Superintendent and Matron have been greatly infringed upon.

On February 26, 1940, your committee again met and proceeded with the Minutes from 1930 to 1934. We noticed that during the first few years that the business of the Home seemed to be carried on in regular form but after that things began to get gradually out of control again. By this, we mean that the Superintendent and Matron had been purchasing articles without first receiving authority from the Commission. As a concrete example of this, we point out the horse deal.

To clear up any misunderstanding in the minds of the people of the counties as to the cost of maintaining this institution, we would like to submit the following costs from 1930 to 1939:

1930	Total cash receipts	$16,903.87
1931	Total cash receipts	13,231.50
1932	Total cash receipts	12,497.84
1933	Total cash receipts	13,010.89
1934	Total cash receipts	14,211.95
1935	Total cash receipts	12,760.16
1936	Total cash receipts	13,795.02
1937	Total cash receipts	14,297.26
1938	Total cash receipts	16,385.46
1939	Total cash receipts	15,222.23

These amounts are comprised of Old Age Pensions, Boarders, grants made from the Counties of Peel and Halton, supplemented by a small amount from the sale of stock and other miscellaneous articles which would not exceed $800.00 in any one year.

The Committee met again on February 27, 1940, and proceeded to prepare their report which was not completed until late in the afternoon of February 28, 1940. After reviewing the foregoing report, your committee beg to submit the following recommendations:

1. We recommend that the Secretary Treasurer keep a closer check on the deaths of inmates receiving Old Age Pensions so that the Commission will not be in the position of having to refund Old Age Pensions.

2. We recommend the salary of the Secretary Treasurer be referred to the consideration of the two counties.

3. We recommend that the censoring of the mail be discontinued.

4. In regards to the Automatic Fire Alarm System, we would recommend that fire drill be held at least once a month so as to avoid any undue commotion should a real fire develop.

5. We recommend that the herd of cattle be cut down to a maximum of 14, first class dairy cows.

6. We recommend an enclosed Bull Pen be provided with a suitable yard.

7. We recommend that a refund of $125.00 be requested from W. E. Yarranton for a horse which died while his property. In committee this recommendation was defeated.

8. We recommend that a Graduate Nurse and Orderly be employed to look after the attention and general welfare of the inmates.

9. We recommend that the services of the elderly physician be dispensed with and a young physician replace him.

10. We recommend that comfortable seats be placed on the lawn for the inmates.

11. We recommend that the sitting rooms be ventilated by fixing the windows so that they can be lowered from the top.

12. We recommend that a copy of the inspector's report be sent to the County Clerks of Peel and Halton and a copy of the rules and regulations be forwarded to the Lieutenant-Governor in Council for approval.

All of which is respectfully submitted.

C. C. Core, 7 days, at $5.00 per day	35.00
	$155.00

Dear Mrs. Falconer:

It is my sad duty to convey to you the deep feelings of sorrow and loss sustained by the Council of the County of Peel and the County officials in the passing of your dear husband so unexpectedly from our midst.

They would beg to express the noble qualities and high Christian principles which were in so a remarkable degree possessed by their late friend and co-worker Charles Falconer and which necessarily elevated him in their esteem and has endeared him to their memory.

The Council impelled not only by a sense of duty and candor but actuated by feelings of long tried friendship desire to assure you that in your late husband they always found a gentleman of unswerving integrity of warm-hearted impulses and zeal for public good.

In view of these circumstances we would beg leave to assure how truly their sympathies are directed in your behalf in the heavy bereavement which by the dispensation of Providence has been allowed to befall you and we ever pray that his loving goodness will sustain you in the loss of a fond and loving husband and your family of its natural guide and protector.

1. In our Report at the June Session this year we recommended that certain work be done. This has been only partly completed.

The approaches on Bridges Nos. 21, 31, 3, and at Cold Creek have been improved as recommended. The cost has been $63.68.

3. Caslors Bridge No. 27 has not been welded, all welding firms have been busy and not anxious to quote a price. It is only the appearance that is affected and the work will be done as soon as a reasonable price can be obtained. A Sign has been ordered for this Bridge.

Road Superintendent's Report

OF EXPENDITURES ON THE PEEL COUNTY ROAD SYSTEM DURING 1940

To the WARDEN and MEMBERS of PEEL COUNTY COUNCIL:

Gentlemen:

I beg to submit herewith the Statement of money expended in accordance with the Regulations of the Department of Highways of Ontario on the Peel County Road System during the period January 1st, 1940, and December 31st, 1940, together with the tabulated Statements, Declarations, etc., required to be forwarded with your Petition for the Government Subsidy on this Expenditure.

The Tax Rate was 2.50 mills, the total expenditure, less loans repaid, was $89,380.57 of which $79,081.11 is eligible for Subsidy.

The only construction work undertaken was a new 12 ft. span bridge on 17 Sideroad East, Chinguacousy Township, Concession four, East—known as Craig's Bridge; the lengthening of an 8 ft. span culvert near Macville, in Albion Township, Lots 10, 11, Concession three; also two new five foot span culverts on the same road in Concession two; and the lengthening of a small culvert in Concession four, East half.

The grading in Albion in Concescion three was completed. The culvert purchased in 1939 was installed and guide rails placed in Caledon Township, Concession three East, Caledon Sideroad. In Chinguacousy Township, the Railway Crossing at Snelgrove was straightened and gravelled.

Your Committee decided not to commence any other new construction, and as a result there is a surplus of $4340.45 in the Good Roads Account.

The season was marked with an increase in the amount of rain, and the roads went into the winter season with the ground full of water. A wet spring will be a testing time for all roads.

While there should be no unnecessary expenditures during the war, true economy consists in keeping up what we have, and the roads should be well maintained. To keep what we have and to do no unnecessary work should be our programme for wartime.

ALL of which is respectfully submitted.

NEWTON L. POWELL, B.A.Sc.,
County Engineer and Road Superintendent.

The C.P.R. would not agree and rather than wait for an order from the Board of Transport Commissioners, which might not have assessed the C.P.R. anything, and would have delayed the work until 1941, it was decided to work on the East side.

VILLAGE OF PORT CREDIT

The Council decided to complete the pavement on Park Street and fill in the ditch on the north side. First placing a 15″ steel pipe in the ditch and replacing the old concrete culvert across the street with an 18″ steel culvert. The balance of the refund to be spent in paving Wesley Street for two blocks. This was done but on preparing Wesley Street it was found that there was practically no foundation and the part near No. 2 Highway was full of water and it was necssary to drain it. The cost overran the amount available but a refund of the excess cost was made. Adjustment of two accounts left a small credit of $30.72 on the year.

REPORTS

FOURTH REPORT OF THE REFORESTATION COMMITTEE

To the Warden and Members of Peel County Council.

Your Committee on Reforestation beg leave to report as follows:—

We have made an inspection of County plots, and also many of private projects.

In Caledon we visited the farm of Dr. Blotz where several acres were planted last year. The caretaker informed us that over 50% had died owing, we believe, to unsuitable varieties having been planted and advised him that they should be replacd with Scotch and Jack Pine.

At Dr. Trottier's farm in Caleon we found 12 or 15 acres which had been planted last year presenting a splendid appearance. These were largely Scotch, Red and Jack Pine and we believe 80% of trees planted were alive and in good condition to survive.

In Albion we visited the farm of John Cooper, where 20 or 25 acres were planted 10 or 12 years ago with Pine. This is a shining example of the value of Reforestation as many trees in this project have attained the height of 20 feet or moro.

On Lot 31, Con. 5, Albion, we viewed a hundred acres which was formerly covered with drifting sand and on which during the past five or six years some 85,000 trees have been planted by Dr. Roberts of Toronto. This plot is making good progress.

On Lot 31, Con. 4, Professor Alexander of Toronto is progressively planting a plot each year and up to date has about ten acres of Pine and Spruce which is making splendid growth.

On Lot 34, Con. 3, on the farm of John Hassard, we viewed a project of about 45 acres. Mr. Hassard has been progressively planting Pine for ten years and this project is another concrete example of the value of reforestation for the reclaiming of what would be a drifting, useless waste.

Your Committee is of the opinion that some tangible form of recognition and appreciation of the great pioneer work being done by these men and others should be shown by this County Council and we would recommend this to the consideration of the whole Council.

Your Committee inspected the property of Mrs. Downham and would recommend that 30 acres of this property be purchased for reforestation next year, price to be $7.00 per acre.

On the 30 acre plot (McLeish Park) trees are making splendid progress, although the mortality among unsuitables has been greater than last year and approximately 2,000 replacements will be needed of Pine.

On 2½ acre plot on 10 sideroad in Albion Township most of the trees are getting well started with the exception of the walnut section which have almost all died. This is a nursery plot of hardwood and contains sufficient trees for replacement for all small plots on 10 sideroad and the 4 acre plot hill south of Bolton.

In Chinguacousy Township the two plots at Raines jog are making good progress. Replacements have been made of trees girdled by mice last winter. These plots are becoming the subject of pleasing comment by passing motorists.

On 17 sideroad in plot east of Snelgrove, where tres were so badly devastated by mice last winter, replacements have been made and all grass has been removed from around by digging and this plot is in good shape to get established.

We recommend that the following commissions be paid to members of Committee:

Alex McLeish, one day	$5.00
John Hooper, one day	$5.00
John Anderson, one day	$5.00
N. L. Powell, expenses	$4.00

All of which is respectfully submitted.

For the period from the first of the year to the 31st of October the amount paid to the Society from the County of Peel is $5,728.50. With another payment only to be made this year the total will be within the estimate for the year.

Owing to the fact that maintenance costs have increased there is a possibility that before the end of the year of the Society, March 31st, 1942, a grant from the counties may be required to supplement the amounts now received for wards of the Society. However, your representatives on the Society will do their utmost to carry on if at all possible without asking for a grant during the said time.

There has been many requests from the Dept. of Welfare for the Society to get additional help in supervising the work in the two counties, Peel and Halton.

Road Superintendent's Report

of

EXPENDITURES ON THE PEEL COUNTY ROAD SYSTEM DURING 1941

To the WARDEN and MEMBERS of PEEL COUNTY COUNCIL.

Gentlemen:—

I beg to submit herewith the statement of money expended in accordance with the Regulations of the Department of Highways of Ontario, on the Peel County Road System during the period of January 1st, 1941, and December 31st, 1941.

Together with the Tabulated Statements; Declarations, etc. required to be forwarded with your Petition for the Government Subsidy on the Expenditure.

The tax rate was 2.50 mills; the total expenditure, less loans repaid, was $104,263.08 of which $92,716.36 is eligible for Subsidy.

Very little construction work was undertaken, consisting in some new signs and a larger number of culverts than usual. Some other small items as detailed in the statements were paid but all could have been classed as Maintenance.

In the fall of 1940 the roads were full of water when winter set in. In the spring the frost went out very quickly with an unusually prolonged hot spell. The result was the worst spring in my experience for frost boils and broken roads. Many spots stayed soft until midsummer.

More gravel than had been used in previous years was placed on the roads. With the same expenditure in 1942 the County Roads should be kept in good shape.

The Sixth Line East, South of Malton for one and one half miles has been taken over by the Toronto and York Commission looking after the work and Peel County paying 25 per cent of the cost. This is to be paved with concrete. A new road leading easterly has been purchased, graded and gravelled without cost to Peel County for the one mile of it that is in Peel County.

A summary of the work done during the year follows.

All of which is respectfully submitted.

NEWTON L. POWELL, B.A.Sc.,
County Engineer and Road Superintendent.

While placing the Tile on the north side it appeared as if one line of Tile might be sufficient.

On Fifteen Sideroad in Caledon, Concession Three East, where the fill sunk when the road was being graded in 1940, the water had been backed up on the property of Geo. Giles, killing all the trees on approximately two acres. Another Culvert was placed in 1940 but this is not low enough to drain the swamp and a partially flooded condition will continue to exist.

Mr. Giles signed a release of all claims for damage to the trees and land so long as the water is not higher than the 1941 level and the present Culvert kept open.

The County paid for the release .... $ 125.00

Accounts Receivable—Municipalities' share of Hospitalization, $433.56 — This represents various municipalities' share of hospitalization charges unpaid as at December 31, 1941.

Accounts Receivable—Road Accounts, $2,878.58—This represents charges against other municipalities for work on boundary roads and other accounts receivable for road material supplied to various people.

Equity in Current Assets of Peel and Halton—House of Refuge

—50% **Interest, $3,664.26**—This represents the County of Peel's interest in the Cash on Deposit and Inventories of Clothing, Food, Livestock, etc., of the House of Refuge as at December 31, 1941.

Current Surplus, $3,843.70 — Excess of Revenue over Expenditure for the year amounting to $415.93 has been added to the Surplus carried forward from previous years.

Good Roads System—Surplus, $641.14—The Surplus of the Good Roads System is made up as follows:

Surplus as at December 31, 1940		$ 4,340.45
Add:		
Adjustments in Accounts Receivable set up at December 31, 1940 (Net)		130.83
		4,471.28
Deduct:		
Subsidy for 1940 less than estimated	$ 109,61	
Excess of Expenditure over Revenue for 1941	3,720.53	3,830.14
Surplus as at December 31, 1941		641.14

The Excess of Expenditure over Revenue for 1941 is summarized as follows:

Expenditures		
Road Expenditures for the year		$101,989.67
Interest charges		2,273.41
		$104,263.08
Revenue		
County Levy for Good Roads System	$50,309.08	
Subsidy for 1941	46,402.53	
Boundary Roads and sundry sales of material	3,830.94	
		100,542.55
Excess of Expenditure over Revenue for year		$ 3,720.53

There are various outstanding accounts which were not paid as at December 31, 1941, which have not been provided for in arriving at the above expenditure. It has not been the practice in the past to set up accounts which were not paid by December 31, 1941, with the result that the above expenditure includes some accounts for 1940 which were not paid until 1941 but does not include some 1941 accounts which have been or will be paid in 1942.

Reserve for Equity in Current Assets of Peel and Halton—House of Refuge, $3,664.26—This Reserve has been created due to setting up the County's interest in the Current Assets of the House of Refuge.

Counties of Peel and Halton—House of Refuge, $46,974.25—On the Capital Balance Sheet, the County of Peel's interest in the various Capital Assets has been adjusted to their interest in the various assets and the County's equity in the Current Assets has been transferred to the Current Balance Sheet.

Capital Surplus, $176,105.55—The Capital Surplus is made up as follows:

Capital Surplus as at December 31, 1940	$184,590.80
Deduct:	
Adjustments in value of County's interest in House of Refuge Furniture, Fixtures and Farm Implements and transfer of Equity in Current Assets	8,905.25
	$175,685.55
Add:	
County's Interest in Addition to House of Refuge paid from Current funds	$ 420.00
Capital Surplus as at December 31, 1941	$176,105.55

Revenue and Expenditure—Statement of Revenue and Expenditure showing detail of the items entering into the calculation of the excess of Revenue over Expenditure of $415.93 is submitted herewith. To the extent that certain revenues of 1941 not received until 1942 and expenditures of 1941 not paid until 1942 are not included and similar items at December 31, 1940, were not included, the Excess of Revenue over Expenditure is incorrect. The Assets and Liabilities of the County are also understated by any amounts which were receivable or payable as at December 31, 1941. The effect of not including accruals in the year's operations possibly is small as the accruals at December 31, 1941 were no doubt approximately the same as at December 31, 1940.

Fidelity Bond—The County Treasurer, John J. Jamieson, is covered by a Fidelity Bond for an amount of $10,000.00.

All of which is respectfully submitted.

Treasurer, County of Peel.

EXPENDITURES ON THE PEEL COUNTY ROAD SYSTEM DURING 1942

To the Warden and Members of Peel County Council:

Gentlemen:

I beg to submit herewith the statement of money expended, in accordance with the Regulations of the Department of Highways of Ontario, on the Peel County Road System during the period, January 1st, 1942 to December 31st, 1942. The tabulated Statements, Declarations, etc., required by the Department of Highways in submitting the Petition for the Subsidy have also been prepared.

The tax rate was 2.40 mills. The total expenditure, less loans repaid was $66,666.98 of which $59,497.10 is eligible for Subsidy.

During the summer a concrete pavement was laid on the Sixth line south from Malton Corner for 4½ lots and thence easterly one mile to the York County Line, connecting with a new road in York County leading to Highway No. 27 and Weston.

The Department of Highways let the contract to Curran & Briggs, and supervised the work. Peel County have not received the account for their proportion of the cost. This was to be 25%

and 25% to the City of Toronto, with the Department paying the usual 50% Subsidy.

The city has not signed the agreement up to the end of the year but so far as Peel County is concerned all difficulties have been adjusted.

All other work was maintenance, no dust laying oil was available and the quantity of gravel had to be reduced in order to cut the expenditures.

The Sixth Line from Woodhill south was regraded and the ditch filled by the water pipe laid for the National Steel Car was shaped up. The Victory Aircraft Ltd. were billed for about 60% of the cost of this grading, an account for $800.00 being sent to them.

On this line two sections of four tenths of a mile each were built up about five inches by a method known as stabilization, using gravel, sand, clay and calcium chloride to make a dense hard road surface.

The wet weather during the fall did not leave the roads in very good condition for the winter and at least as much should be spent in 1943 as in 1942.

A summary of the work done during the year follows:

All of which is respectfully submitted.

N. L. POWELL, B.A.Sc.,
County Engineer and Road Superintendent.

Auditor's Report

January 15, 1943.

Warden and Council,
County of Peel,
Brampton, Ont.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1942, and submit herewith the following report, together with statements listed on the Index.

Report

Cash on Deposit—The amounts of $38,756.77 on deposit in the General Account and $1,819.44 in the Road Account have been verified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque.

Accounts Receivable—Road Accounts, $1,325.84—This represents charges against other municipalities for work on boundary roads and other accounts receivable for road material supplied to various people. These accounts represent charges for work done or material supplied in 1942 or prior as set out below:

Accounts 1940 and prior	$ 111.21
Accounts 1941	567.23
Accounts 1942	647.40
Total	$1,325.84

A supplementary schedule showing these accounts in detail is being submitted.

Accounts Receivable—Province of Ontario Road Grant for 1942, $29,454.87—This represents the estimated subsidy receivable from the Province of Ontario on account of 1942 expenditures on the roads.

Equity in Current Assets of Peel and Halton — House of Refuge—50% Interest, $5,613.21—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the House of Refuge as at December 31, 1942.

Bank Loans—Road Account, $20,500.00 — The bank loan of $20,500.00 has been confirmed by direct communication with your bankers.

Current Surplus, $5,095.96—The Surplus for the year amounting to $1,252.26 has been added to the Surplus carried forward from previous years to give an accumulated Surplus of $5,095.96.

Good Roads System—Surplus, $12,100.15—The Surplus of the Good Roads System is made up as follows:

Surplus as at December 31, 1941	$ 641.14
Add:	
Surplus for Year 1942	11,510.16
	$12,151.30
Deduct:	
Subsidy for 1941 less than estimated	51.15
Surplus as at December 31, 1942	$12,100.15

The Surplus for 1942 is summarized as follows:

Revenues		
County Levy for Good Roads System		$47,037.24
Subsidy for 1942		29,454.87
Boundary Roads and Sundry Sales of Material		1,247.97
		$77,740.08
Expenditures		
Road Expenditures for the year	$64,481.91	
Interest Charges	1,748.01	
		66,229.92
Surplus for Year 1942		$11,510.16

There are various outstanding accounts which were not paid as at December 31, 1942, which have not been provided for in arriving at the above expenditure. It has not been the practice in the past to set up accounts which were not paid by December 31st, with the result that the above expenditure includes some accounts for 1941 which were not paid until 1942 but does not include some 1942 accounts which have been, or will be paid in 1943. The amount of the accounts outstanding at December 31st is usually small but we understand that, as at December 31, 1942, there was owing an amount as yet undetermined covering twenty-five percent of the cost of the Malton Road. While the exact amount of this is not known, we understand that it will be approximately $9,000.00.

Capital Surplus, $180,217.32—The Capital Surplus was adjusted due to the increase in the value of the County's interest in the Capital Assets of the House of Refuge. The increase in the value of the Capital Assets of the House of Refuge occurred due to a building addition having been made from Current Funds of the House of Refuge. This increase was to a small extent reduced by a revaluation of the furniture, fixtures and farm implements. The net adjustment in the County's interest was $4,111.77 and this is reflected by an increase in the Capital Surplus to $180,217.32 as at December 31, 1942.

Revenue and Expenditure—Statement of Revenue and Expenditure showing detail of the items entering into the calculation of the Surplus for the year of $1,252.25 is submitted herewith. To the extent that certain revenue of 1942 not received until 1943 and expenditures of 1942 not paid until 1943 are not included and similar items at December 31, 1941, were not included, the Surplus for the year is incorrect. The Assets and Liabilities of the County are also understated by any amounts which were receivable or payable as at December 31, 1942. The effect of not including accruals in the year's operations possibly is small as the accruals at December 31, 1942, were no doubt approximately the same as at December 31, 1941.

Fidelity Bond—The County Treasurer, John J. Jamieson, is covered by a Fidelity Bond for an amount of $10,000.00. In our opinion this bond would appear to be sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this insurance appears to be adequate.

Certificate—We certify that we have obtained all the explanations and information we have required and that, in our opinion, the transactions of the Municipality which have come under our notice have been within the powers of the Municipality, with the exception of any matter which may be reported upon herebefore. In our opinion, the Current Balance Sheet and Capital Balance Sheet submitted herewith are property drawn up so as to exhibit a true and correct view of the state of the Municipality's affairs and as shown by the books of the Municipality. We certify that, in our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting municipal audits.

All of which is respectively submitted.

Inventry, $9,824.50—Your superintendent has supplied us with inventory values of the Clothing, Food, Livestock, etc., on hand as at December 31, 1942.

Maintenance Prepaid, $685.30—This represents prepayments of maintenance of various paying residents. This resulted from the sale of assets of the estates of some of the paying residents.

Current Surplus, $11,226.43—The current surplus as at December 31, 1941, was $7,328.52. To this surplus as at December 31, 1941, has been added.the net surplus for 1942 amounting to $3,897.91, which gives a current surplus as at December 31, 1942, of $11,226.43.

General Assets and Liabilities

Land and Buildings, $85,670.00—Land and buildings have been placed at the same value as at December 31, 1941. The capital improvements and major repairs made during 1942 amount to $1,440.40 and have not been capitalized as these expenditures no doubt only maintain the value of the buildings.

Building Addition, $9,382.33—During 1941 an extension to the building was approved. The addition was completed in 1942 and as at December 31, 1942, the total cost amounted to $9,382.33. Of the total amount, $8,542.33 has been charged to Revenue and Expenditure for the year, and $840.00 was charged to Revenue and Expenditure in 1941.

Furniture and Fixtures, $6,185.70—Furniture and Fixtures are valued at $6,185.70, a valuation as supplied by the superintendent.

Farm Implements, $954.00—Farm implements are valued at $954.00, a valuation as supplied by the superintendent.

Capital Surplus, $102,192.03—Capital Surplus has been set at the value of the capital assets as these assets are all fully paid for.

Trust Assets and Liabilities

General—Under various court orders, real and personal property of certain inmates has been vested in the municipal corporation of the Counties of Peel and Halton, and subsequently the Counties of Peel and Halton have transferred their interest to the Board of Management of the House of Refuge. The Board of Management has in some cases realized on the assets and applied them in payment of the maintenance of the inmates, and in other cases, they are receiving the income from the assets which they have been applying to the maintenance of the inmates or which has been deposited in a special trust account for the inmates. A supplementary report is being submitted showing the detail of the assets held for individual estates.

Cash on Deposit, $430.44—Cash on deposit of $430.44 is in a special trust account in the name of "J. J. Jamieson in Trust". We would recommend that this account be transferred to the name of the "Corporations of the Counties of Peel and Halton, House of Refuge in Trust".

Dominon of Canada Victory Loan, 3%, June 15, 1951, $1,500.00—These bonds are fully registered in the name of the Commissioners, Peel and Halton House of Refuge, Trustees of the Estate to which they are applicable.

War Savings Certificates (Maturity Value $50.00), Cost $40.00—These certificates are registered in the name of the inmate for whom the trust is being administered. They form part of the original assets turned over.

Real Estate, $1,000.00—One parcel of real estate is held, valued at $1,000.00 and is rented at $6.00 per month plus payment of taxes. Taxes for 1941 and 1942 have been paid but taxes for prior years are still owing. Insurance coverage of $1,000.00 is carried on this property.

Agreement for Sale and Balance due on Sale, $650.00—Balance outstanding on agreement for sale is $500.00. The agreement calls for annual payment of $50.00 principal together with interest. Principal and interest are paid to date on this agreement. Balance due on Sale, $150.00, is due on closing the sale of a parcel of property.

Mortgage, $500.00—The original mortgage was for $600.00, bearing interest at the rate of 6%. According to the information supplied to the Secretary-Treasurer, when this mortgage was assigned to the inmate, the principal had been reduced to $500.00 and interest was being accepted at 5% per annum. Since being vested in the House of Refuge, interest payments at 5% have been accepted as payment in full. Interest is in arrears from January 15, 1941, no payments having been received during 1942. We understand that foreclosure proceedings or other legal action are under consideration on this mortgage.

Maintenance Prepaid, $685.30—The proceeds from the sale of certain assets of various trusts have been applied on account of maintenance. As at December 31, 1942, maintenance was prepaid on account of two inmates by an amount of $685.30.

Estates of Inmates—re Invested Funds and Unrealized Assets, $4,805.74—This represents the total assets held in trust being administered by the House of Refuge for the benefit of various inmates.

General

Statement of Revenue and Expenditure for year ending December 31, 1942—Statement of Revenue and Expenditure for the year ending December 31, 1942, shows a net surplus for the year of $3,897.91. Following the practice of former years, balances owing on account of any inmates and any accounts outstanding as at December 31, 1942, have not been set up.

Statement of Recipts and Disbursements for year ending December 31, 1942—Statement of Receipts and Disbursements for the year ending December 31, 1942, is submitted herewith.

Fidelity Bonds—The following Fidelity Bond is in force:

J. J. Jamieson—Secretary Treasurer......$2,000.00

In our opinion, the bond on the Secretary-Treasurer is sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this insurance is adequate.

Recommendations—The books of the House of Refuge consist of Cash Receipts and Disbursements only. The Statesments of Assets and Liabilities and Revenue and Expenditure have been prepared from supplementing information which has been available. We recommend that a General Ledger be started as at December 31, 1942, for the House of Refuge in order that complete accounting records may be maintained, and in order to facilitate this, journal entries to set up the assets and liabilities are being supplied to the Secretary-Treasurer.

Certificate—We certify that we have received all the explanations and information that we have required and that, in our opinion, the transactions of the Board of Management of the House of Refuge which have come under our notice have been within the powers of the Board, with the exception of any matters which have been reported above. In our opinion, the Statement of Assets and Liabilities as at December 31, 1942, submitted herewith, is properly drawn up so as to exhibit a true and correct view of the state of the affairs of the House of Refuge as revealed by the information which we have been able to obtain. In our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting municipal audits.

All of which is respectfully submitted.

REPORT OF THE COMMISSIONERS OF THE HOUSE OF REFUGE

To the Warden and Council of the County of Peel.

Your Committee on House of Refuge beg to report as follows:

The inventory prepared to be inserted in the minutes shows that for periods during the year there was a total of 138 inmates resident in the Home, with the average number resident of approximately 120.

The general health of the inmates has been fairly good considering their age. There were 10 deaths during the year.

Dr. Allan Noble, at the time he joined the armed forces, submited to the Board his resignation as Doctor for the House of Refuge. Your Commissioners declined to accept Dr. Noble's resignation and Dr. W. H. Brydon was asked to attend to Dr. Noble's duties at the Home during the duration of the war. Dr. Brydon accepted the duties mentioned and everything is apparently going on satisfactorily.

The above action was taken by your Commissioners subject to the approval of the Councils of the Counties of Halton and Peel.

The new addition was completed during the year at a total cost of $9,382.33, and has been a great asset to the Home.

Due to the fact that there is approximately 120 inmates in the Home at the present time and we are receiving many applications to admit to the Home elderly persons who have nobody in particular to look after them, your Commissioners of 1942 passed a resolution recommending to the Board appointed for the year 1943, and the Councils of the Counties of Halton and Peel, that they seriously consider the matter of erecting an addition to the men's quarters.

The financial statement and inventory attached show the House of Refuge to be in a good financial and good general condition.

Adopted.

All of which is respectfully submitted.

To the Warden and Council of the County of Peel.

Your committee on House of Refuge beg to report as follows:

Conditions at the House of Refuge have not altered much since our last report submitted to this Council at the meeting in the month of March.

Regarding the matter of erection of the proposed new addition, the board employed Mr. R. W. Hall, Architect, to draft plans and specifications. He submitted plans at our last regular meeting which provided for an addition 39 feet long by 26 feet wide at the north end of the present building. said plans to be amended by some suggested alterations, were accepted and Mr. Hall was requested to fill in the application to the Controller of Construction for a license to undertake the said work, and was instructed to advertise for tenders for the erection of the said proposed addition, said tenders to be received and opened at the next regular meeting of the Board to be held on the evening of July 2nd next, if the said license and an acceptable tender is received by the said date we hope to be in the position to go on with the work at an early date.

The Grand Jury visited the Home during the sitting of the court last week and apparently were quite satisfied with conditions generally. They made one recommendation that the outside of the House of Refuge be painted; the board have had this matter under consideration for some time and hope to be in the position to attend to it during the summer.

The tax rate was 2.40 mills. The total expenditure, less loans repaid was $66,666.98 of which $59,497.10 is eligible for Subsidy.

During the summer a concrete pavement was laid on the Sixth line south from Malton Corner for 4½ lots and thence easterly one mile to the York County Line, connecting with a new road in York County leading to Highway No. 27 and Weston.

The Department of Highways let the contract to Curran & Briggs, and supervised the work. Peel County have not received the account for their proportion of the cost. This was to be 25%

and 25% to the City of Toronto, with the Department paying the usual 50% Subsidy.

The city has not signed the agreement up to the end of the year but so far as Peel County is concerned all difficulties have been adjusted.

All other work was maintenance, no dust laying oil was available and the quantity of gravel had to be reduced in order to cut the expenditures.

The Sixth Line from Woodhill south was regraded and the ditch filled by the water pipe laid for the National Steel Car was shaped up. The Victory Aircraft Ltd. were billed for about 60% of the cost of this grading, an account for $800.00 being sent to them.

On this line two sections of four tenths of a mile each were built up about five inches by a method known as stabilization, using gravel, sand, clay and calcium chloride to make a dense hard road surface.

The wet weather during the fall did not leave the roads in very good condition for the winter and at least as much should be spent in 1943 as in 1942.

A summary of the work done during the year follows:

All of which is respectfully submitted.

N. L. POWELL, B.A.Sc.,
County Engineer and Road Superintendent.

Auditor's Report

January 15, 1943.

Warden and Council,
County of Peel,
Brampton, Ont.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1942, and submit herewith the following report, together with statements listed on the Index.

Report

Cash on Deposit—The amounts of $38,756.77 on deposit in the General Account and $1,819.44 in the Road Account have been verified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque.

Accounts Receivable—Road Accounts, $1,325.84—This represents charges against other municipalities for work on boundary roads and other accounts receivable for road material supplied to various people. These accounts represent charges for work done or material supplied in 1942 or prior as set out below:

Accounts 1940 and prior	$ 111.21
Accounts 1941	567.23
Accounts 1942	647.40
Total	$1,325.84

A supplementary schedule showing these accounts in detail is being submitted.

Accounts Receivable—Province of Ontario Road Grant for 1942, $29,454.87—This represents the estimated subsidy receivable from the Province of Ontario on account of 1942 expenditures on the roads.

Equity in Current Assets of Peel and Halton — House of Refuge—50% Interest, $5,613.21—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the House of Refuge as at December 31, 1942.

Bank Loans—Road Account, $20,500.00 — The bank loan of $20,500.00 has been confirmed by direct communication with your bankers.

Current Surplus, $5,095.96—The Surplus for the year amounting to $1,252.26 has been added to the Surplus carried forward from previous years to give an accumulated Surplus of $5,095.96.

Good Roads System—Surplus, $12,100.15—The Surplus of the Good Roads System is made up as follows:

Surplus as at December 31, 1941	$ 641.14
Add:	
Surplus for Year 1942	11,510.16
	$12,151.30
Deduct:	
Subsidy for 1941 less than estimated	51.15
Surplus as at December 31, 1942	$12,100.15

The Surplus for 1942 is summarized as follows:

Revenues		
County Levy for Good Roads System		$47,037.24
Subsidy for 1942		29,454.87
Boundary Roads and Sundry Sales of Material		1,247.97
		$77,740.08
Expenditures		
Road Expenditures for the year	$64,481.91	
Interest Charges	1,748.01	
		66,229.92
Surplus for Year 1942		$11,510.16

There are various outstanding accounts which were not paid as at December 31, 1942, which have not been provided for in arriving at the above expenditure. It has not been the practice in the past to set up accounts which were not paid by December 31st, with the result that the above expenditure includes some accounts for 1941 which were not paid until 1942 but does not include some 1942 accounts which have been, or will be paid in 1943. The amount of the accounts outstanding at December 31st is usually small but we understand that, as at December 31, 1942, there was owing an amount as yet undetermined covering twenty-five percent of the cost of the Malton Road. While the exact amount of this is not known, we understand that it will be approximately $9,000.00.

Capital Surplus, $180,217.32—The Capital Surplus was adjusted due to the increase in the value of the County's interest in the Capital Assets of the House of Refuge. The increase in the value of the Capital Assets of the House of Refuge occurred due to a building addition having been made from Current Funds of the House of Refuge. This increase was to a small extent reduced by a revaluation of the furniture, fixtures and farm implements. The net adjustment in the County's interest was $4,111.77 and this is reflected by an increase in the Capital Surplus to $180,217.32 as at December 31, 1942.

Revenue and Expenditure—Statement of Revenue and Expenditure showing detail of the items entering into the calculation of the Surplus for the year of $1,252.25 is submitted herewith. To the extent that certain revenue of 1942 not received until 1943 and expenditures of 1942 not paid until 1943 are not included and similar items at December 31, 1941, were not included, the Surplus for the year is incorrect. The Assets and Liabilities of the County are also understated by any amounts which were receivable or payable as at December 31, 1942. The effect of not including accruals in the year's operations possibly is small as the accruals at December 31, 1942, were no doubt approximately the same as at December 31, 1941.

Fidelity Bond—The County Treasurer, John J. Jamieson, is covered by a Fidelity Bond for an amount of $10,000.00. In our opinion this bond would appear to be sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this insurance appears to be adequate.

Certificate—We certify that we have obtained all the explanations and information we have required and that, in our opinion, the transactions of the Municipality which have come under our notice have been within the powers of the Municipality, with the exception of any matter which may be reported upon herebefore. In our opinion, the Current Balance Sheet and Capital Balance Sheet submitted herewith are property drawn up so as to exhibit a true and correct view of the state of the Municipality's affairs and as shown by the books of the Municipality. We certify that, in our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting municipal audits.

All of which is respectively submitted.

Auditor's Report
House Of Refuge

January 15, 1943.

Board of Management,
Corporations of Counties of Peel and Halton,
House of Refuge
Brampton, Ontario.

Gentlemen:

We have audited the accounts of the House of Refuge of the Corporations of the Counties of Peel and Halton for the year ending December 31, 1942, and submit herewith the following report, together with the statements listed on the index herewith.

REPORT

Current Assets and Liabilities

Cash on Deposit, $2,087.23—All monies received are deposited in the bank account in the name of the Counties of Peel and Halton House of Refuge. All payments are made by cheque. We have verified the amount on deposit direct with your bankers.

Inventry, $9,824.50—Your superintendent has supplied us with inventory values of the Clothing, Food, Livestock, etc., on hand as at December 31, 1942.

Maintenance Prepaid, $685.30—This represents prepayments of maintenance of various paying residents. This resulted from the sale of assets of the estates of some of the paying residents.

Current Surplus, $11,226.43—The current surplus as at December 31, 1941, was $7,328.52. To this surplus as at December 31, 1941, has been added the net surplus for 1942 amounting to $3,897.91, which gives a current surplus as at December 31, 1942, of $11,226.43.

General Assets and Liabilities

Land and Buildings, $85,670.00—Land and buildings have been placed at the same value as at December 31, 1941. The capital improvements and major repairs made during 1942 amount to $1,440.40 and have not been capitalized as these expenditures no doubt only maintain the value of the buildings.

Building Addition, $9,382.33—During 1941 an extension to the building was approved. The addition was completed in 1942 and as at December 31, 1942, the total cost amounted to $9,382.33. Of the total amount, $8,542.33 has been charged to Revenue and Expenditure for the year, and $840.00 was charged to Revenue and Expenditure in 1941.

Furniture and Fixtures, $6,185.70—Furniture and Fixtures are valued at $6,185.70, a valuation as supplied by the superintendent.

Farm Implements, $954.00—Farm implements are valued at $954.00, a valuation as supplied by the superintendent.

Capital Surplus, $102,192.03—Capital Surplus has been set at the value of the capital assets as these assets are all fully paid for.

Trust Assets and Liabilities

General—Under various court orders, real and personal property of certain inmates has been vested in the municipal corporation of the Counties of Peel and Halton, and subsequently the Counties of Peel and Halton have transferred their interest to the Board of Management of the House of Refuge. The Board of Management has in some cases realized on the assets and applied them in payment of the maintenance of the inmates, and in other cases, they are receiving the income from the assets which they have been applying to the maintenance of the inmates or which has been deposited in a special trust account for the inmates. A supplementary report is being submitted showing the detail of the assets held for individual estates.

Cash on Deposit, $430.44—Cash on deposit of $430.44 is in a special trust account in the name of "J. J. Jamieson in Trust". We would recommend that this account be transferred to the name of the "Corporations of the Counties of Peel and Halton, House of Refuge in Trust".

Dominon of Canada Victory Loan, 3%, June 15, 1951, $1,500.00—These bonds are fully registered in the name of the Commissioners, Peel and Halton House of Refuge, Trustees of the Estate to which they are applicable.

War Savings Certificates (Maturity Value $50.00), Cost $40.00—These certificates are registered in the name of the inmate for whom the trust is being administered. They form part of the original assets turned over.

Real Estate, $1,000.00—One parcel of real estate is held, valued at $1,000.00 and is rented at $6.00 per month plus payment of taxes. Taxes for 1941 and 1942 have been paid but taxes for prior years are still owing. Insurance coverage of $1,000.00 is carried on this property.

Agreement for Sale and Balance due on Sale, $650.00—Balance outstanding on agreement for sale is $500.00. The agreement calls for annual payment of $50.00 principal together with interest. Principal and interest are paid to date on this agreement. Balance due on Sale, $150.00, is due on closing the sale of a parcel of property.

Mortgage, $500.00—The original mortgage was for $600.00, bearing interest at the rate of 6%. According to the information supplied to the Secretary-Treasurer, when this mortgage was assigned to the inmate, the principal had been reduced to $500.00 and interest was being accepted at 5% per annum. Since being vested in the House of Refuge, interest payments at 5% have been accepted as payment in full. Interest is in arrears from January 15, 1941, no payments having been received during 1942. We understand that foreclosure proceedings or other legal action are under consideration on this mortgage.

Maintenance Prepaid, $685.30—The proceeds from the sale of certain assets of various trusts have been applied on account of maintenance. As at December 31, 1942, maintenance was prepaid on account of two inmates by an amount of $685.30.

Estates of Inmates—re Invested Funds and Unrealized Assets, $4,805.74—This represents the total assets held in trust being administered by the House of Refuge for the benefit of various inmates.

General

Statement of Revenue and Expenditure for year ending December 31, 1942—Statement of Revenue and Expenditure for the year ending December 31, 1942, shows a net surplus for the year of $3,897.91. Following the practice of former years, balances owing on account of any inmates and any accounts outstanding as at December 31, 1942, have not been set up.

Statement of Recipts and Disbursements for year ending December 31, 1942—Statement of Receipts and Disbursements for the year ending December 31, 1942, is submitted herewith.

Fidelity Bonds—The following Fidelity Bond is in force:

J. J. Jamieson—Secretary Treasurer......$2,000.00

In our opinion, the bond on the Secretary-Treasurer is sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this insurance is adequate.

Recommendations—The books of the House of Refuge consist of Cash Receipts and Disbursements only. The Statesments of Assets and Liabilities and Revenue and Expenditure have been prepared from supplementing information which has been available. We recommend that a General Ledger be started as at December 31, 1942, for the House of Refuge in order that complete accounting records may be maintained, and in order to facilitate this, journal entries to set up the assets and liabilities are being supplied to the Secretary-Treasurer.

Certificate—We certify that we have received all the explanations and information that we have required and that, in our opinion, the transactions of the Board of Management of the House of Refuge which have come under our notice have been within the powers of the Board, with the exception of any matters which have been reported above. In our opinion, the Statement of Assets and Liabilities as at December 31, 1942, submitted herewith, is properly drawn up so as to exhibit a true and correct view of the state of the affairs of the House of Refuge as revealed by the information which we have been able to obtain. In our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting municipal audits.

All of which is respectfully submitted.

Chartered Accountants.

REPORTS

Toronto, January 13, 1944

Warden and Council,
County of Peel,
Brampton, Ont.

Gentlemen:

We have audited the accounts of the Corporation of the County of Peel for the year ending December 31, 1943, and submit herewith the following report together with statements listed on the Index.

Report

Cash on Deposit—The amounts of $36,664.15 on deposit in the General Account and $287.25 in the Road Account have been verified by direct communication with your bankers. All monies received are deposited in bank accounts in the name of the Municipality and all payments are made by cheque except certain small payments for postage and express. Money received from personal phone calls and stamps is not deposited but used to pay for express, freight and postage. The transactions for a year would be approximately $15.00 to $20.00 and these transactions are not recorded in the general County books.

County Rates Receivable $3,364.51—This represents County Rates levied for 1943 which had not been paid as at Dec. 31, 1943. The rates were owing by the following:

Bolton	$1,561.13
Streeetsville	1,803.38
Total	$3,364.51

Accouunts Receivable—Road Accounts, $1,095.87—This represents charges against other municipalities for work on boundary roads and other accounts receivable for road material supplied to various people.

Accounts Receivable—Province of Ontario Road Grant for 1943, $42,062.68—This represents the estimated subsidy receivable from the Province of Ontario on account of 1943 expenditures on the roads.

Good Roads System—Deficit, $7,554.20—The Deficit of the Good Roads System is made up as follows:

Surplus as at December 31, 1942	$12,100.15
Add:	
Subsidy for 1942 more than estimated	319.05
	$12,419.20
Deduct:	
Deficit for year 1943	$19,973.40
Deficit as at December 31, 1943	$7,554.20

The Deficit for 1943 is summarized as follows:

Revenues		
County Levy for Good Roads System		$52,945.74
Subsidy for 1943		42,062.68
Boundary Roads and Sundry Sales of Material		2,526.24
Contribution re Malton Road		5,000.00
		$102,534.66
Expenditures		
Road Expenditures for the year	$121,544.12	
Interest Charges	963.94	122,508.06
Deficit for Year 1943		$19,973.40

These are various outstanding accounts which were not paid as at December 31, 1943, which have not been provided for in arriving at the above expenditure. It has not been the practice in the past to set up accounts which were not paid by December 31st, with the result that the above expenditure includes some accounts for 1942 which were not paid until 1943 but does not include some 1943 accounts which have been, or will be paid in 1944. Accounts of Armstrong Brothers and J. C. Duff have been paid on the basis of mileage and signed delivery slips which are different than invoices submitted. The Road Superintendent is checking into the differences in these accounts with the suppliers.

Equity in Current Assets of Peel and Halton—House of Refuge—50% interest, $4,838.11—This represents the County of Peel's interest in the Current Assets, less the Current Liabilities, of the House of Refuge as at December 31, 1943.

Bank Loans—Road Account, $51,000.00—The Bank Loan of $51,000.00 has been confirmed by direct communication with your bankers.

Current Surplus, $10,270.94—The Surplus for the year amounting to $5,174.98 has been added to the Surplus carried forward from previous years to give an accumulated Surplus of $10,270.94.

Capital Surplus, $181,021.53—The Capital Surplus was adjusted due to the increase in the value of the County's interest in the Capital Assets of the House of Refuge. The increase in the value of the Capital Assets of the House of Refuge occurred due to a building addition having been made from Current Funds of the House of Refuge.

Revenue and Expenditure—Statement of Revenue and Expenditure showing detail of the items entering into the calculation of the Deficit for the year of $5,174.98 is submitted herewith. To the extent that certain revenues of 1943 not received until 1944 and expenditures of 1943 not paid until 1944 are not included and similar items at December 31, 1942, were not included, the Deficit for the year is incorrect. The Assets and Liabilities of the County are also understated by any amounts which were receivable or payable at at December 31, 1943. The effect of not including accruals in the year's operations possibly is small as the accruals at December 31, 1943, were no doubt approximately the same as at December 31, 1942.

Fidelity Bond—The County Treasurer, John J. Jamieson, is covered by a Fidelity Bond for an amount of $10,000.00. In our opinion this bond would appear to be sufficient.

Insurance in Force—Schedule of Insurance in Force is submitted herewith. In our opinion, having in mind the depreciated value of the buildings, this Insurance appears to be adequate.

Certificate—We certify that we have obtained all the explanations and information we have required and that, in our opinion, the transactions of the Municipality which have come under our notice have been within the powers of the Municipality, with the exception of any matter which may be reported upon heretofore. In our opinion, the Current Balance Sheet and Capital Balance Sheet submitted herewith are properly drawn up so as to exhibit a true and correct view of the state of the Municipality's affairs and as shown by the books of the Municipality. We certify that, in our opinion, the audit and report are in accordance with the regulations of the Department of Municipal Affairs respecting Municipal audits.

All of which is respectfully submitted.

Treasurer County of Peel.

EXPENDITURES ON THE PEEL COUNTY ROAD SYSTEM DURING 1943

To the Warden and Members of Peel County Council.

Gentlemen:

I beg to submit herewith the statement of money expended, in accordance with the Regulations of the Department of Highways of Ontario, on the Peel County Road System during the period Jan. 1st, 1943, to December 31st, 1943; the Tabulated Statements, Declarations, etc., required by the Department of Highways have also been prepared and sent on to them.

The Tax Rate was 2.50 mills. The total expenditure, including Loans repaid of $41,000.00, was $163,510.20. This includes the County share of the Malton Road $27,970.56, and the amount submitted for Subsidy was $84,095.75.

The work done during the year was Maintenance only as Construction work was deferred from the lack of both materials and labor and by request of the Department.

Two and one-quarter miles on the Sixth Line from Mono Mills to the Caledon Sideroad was graded and a base course of pit run gravel placed. This work was long overdue and there are a number of other sections that need improvement.

The Council of 1944 should seriously consider adopting a long range program of improvement covering from five to ten years, with definite objectives for each year so as to bring the County Roads up to the standards required by the present and future traffic they will be subjected to. Some radical changes will need to be made in methods and machinery used.

A summary of the work done during the years follows.

All of which is respectfully submitted.

N. L. POWELL, B.A., Sc.,
County Engineer and Road Supt.

FIRST REPORT OF THE COMMISSIONERS OF THE HOUSE OF REFUGE COMMITTEE

To the Warden and Council of the County of Peel.

Your Committee on House of Refuge forthe year 1943 beg to report as follows:

The Inventory prepared to be inserted in the minutes shows that during the year there was in all 144 Inmates in the Home making a total of 40,111 days residence, with an average of 278.54 days residence per Inmate.

The general health of the Inmates has been fairly good considering their age. There were 20 deaths during the year.

The Commissioners in their report of their work for the year

1942 submitted to the Council in the January Session of 1943, recommended to the Board of 1943 and the Councils of Peel and Halton that because of the crowded condition of the Home an addition be built, as conditions as to the same had not improved, your Commissioners, early in the summer, advertised for tenders for an addition to be built on the north side of the Home and the reconstruction of the front entrance and the room adjoining same, the said room to be equipped for an office, one tender only was received for the amount of $14,696.00, which was accepted on condition that the work would be started by the 16th day of August and proceeded with as from the said date. The Contractor started work on the said date but due to the scarcity of labor the Sub-Contractors apparently were unable to go ahead with the work and consequently satisfactory progress has not been made on the building, however we have the assurance of the Contractor that the work already done will be protected until the spring when the building will be completed, the cost of the building under the contract including Architect's fees, etc., will be approximately $15,500.00, the sum of $1500.00 has been paid under the said contract to date.

Gyproc ceilings were put on three of the rooms at an approximate cost of $175.00.

We called for tenders to paint six rooms in the Home and have accepted a tender to paint the said rooms at a cost of $542.00.

The inancial statement and inventory attached show the House of Refuge to be in a good financial and good general condition.

All of which is respectfully submitted.

Adopted January 20, 1944.

C. E. CANTELON, JOHN G. HOOPER,
Chairman. Warden.

Miss Edna L. Moore, Superintendent of Public Health Nurses, was present and three other nurses came to meet the Committee. Miss Moore explained the set-up of a school programme of nursing and advised initial salaries of $1400 for staff nurses and $1600 for a senior nurse, plus travelling expenses.

The Committee engaged one of the nurses who was present and discussed the question of engagement with the other two.

The Secretary of the Committee was instructed to advertise for nurses. The advertisement was carried in the Globe and Mail on June 7th, 8th, 9th and 10th. So far the Secretary has had no applications.

The Secretary was also instructed to send a form of agreement to all School Boards in the County. The agreement shows that the Boards consent to admit the nurses provided and paid for by the County in all schools under the control of the Boards. So far 43 Boards have returned the form, signed. Three Boards have refused to sign, two of them rejecting the offer of the service, and the other, Brampton, wishing to reserve decision until the Board of Education has had an opportunity to discuss the proposal.

Your Committee on Children's Aid Society beg to report as follows:

1. On June 1, 1944, the Children's Aid Society of Peel County opened a temporary office in the County Court House and started to function. It was discovered that legal precedent was created in dealing with the transfer of the wards, temporary and permanent, and a delay of several months was necessary. However, this matter has been cleared up and the society now has control of the following:

Number of Wards in board care	25
Number of Wards in free homes	7

Number of Wards in Hospital, Orillia	3
Child protection	28
Open cases unmarried parents	26
Adoption probation	21
Supervision other societies	7

Fifteen Wards of the Parent Society all over the age of 16 years are left with the Halton Society. This was necessary as the Act reads (a child shall mean a boy or girl actually or apparently under 16 years of age). These wards could not be dealt with and will remain wards of the Parent Society. All are self-supporting, five in the Army, and all are nearing the age of 21 and will be of age.

REPORT OF THE HOUSE OF REFUGE COMMISSIONERS COMMITTEE

To the Warden and Council of the County of Peel and County of Halton.

Your Committee on Commissioners on House of Refuge beg to report as follows:

There are 118 inmates in the Home at the present time, 52 Women and 66 Men, of the said number 57 were admitted from the County of Halton and 61 from the County of Peel. With the said number of inmates in the Home you can easily understand that it is crowded to capacity and we regret to have to report that the new addition is not yet completed, due to labor conditions slow progress has been made, however, we believe the contractor is now in a position to go ahead and complete his contract before the end of this year unless some unforeseen difficulties arise.

Nine inmates have passed away during the year, three resident from the County of Halton and six from the County of Peel; however, when we consider the crowded condition of the Home, the health of the inmates had been good.

May we ask your attention to the fact that applications for admittance to the Home have been on the increase, and your Board, influenced by the desire to give as much service as possible to the residents of the counties. and with the thought that the crowded condition would be somewhat eased when the new addition is completed, have been approving of most of the applications. However, we feel that the Councils of the two Counties will have to consider the matter of what is to be done from the fact that even when the new addition is finished and available, the capacity of the Home will still be overtaxed, and if applications continue to be received in future in as great numbers as they have been this year, it would appear that the Commissioners in future may have to reject some of the applications or the Councils may have to consider the matter of providing more accommodation.

Conditions on the farm have been good, with the exception that some of the grain was below standard in weight, the crops were good and there is a good supply of vegetables and roots stored away for winter use both for the house and for feeding the stock.

One of the Commissioners of one of the County Homes of the Province when the Board of the Home visited our Home during the summer made a comment which we appreciate very much. He said, "This Home is more like a Home than an institution". Our hope is that it may remain so. We feel that much of the credit for same is due to the Superintendent and Matron.

The Financial Statement covering the period from January 1st to October 30th is attached, also number of stock.

May we take this opportunity to thank the members of Councils of the two Counties for their co-operation during the year.

All of which is respectfully submitted.

Adopted.

C. E. CANTELON,
Chairman.

JOHN G. HOOPER,
Warden.
